

aXoclean[®]

powered by aXonnite[®]

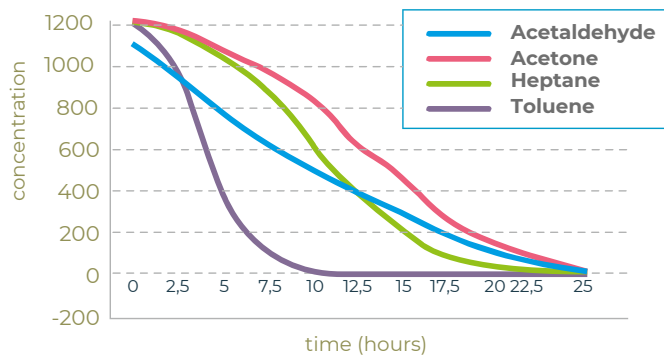

aXoclean® powered by aXonnite®, is the most innovative line of professional cleaning and protection products that use unique aXonnite® technology.

» Fragmentation of silver particles in aXonnite® technology leads to unbeatable, long lasting antibacterial effect, thanks to aXonnite® particles and antifungal effect. aXoclean® powered by aXonnite® delivers long lasting protective results, helps to keep any surface clean and bacteria free, 24/7. Surface protected by aXonnite® is safe and resistant even to so called “super bacteria”, it also prevents from biofilm buildup. aXonnite® makes traditional cleaning safer than ever, leading to a clean.

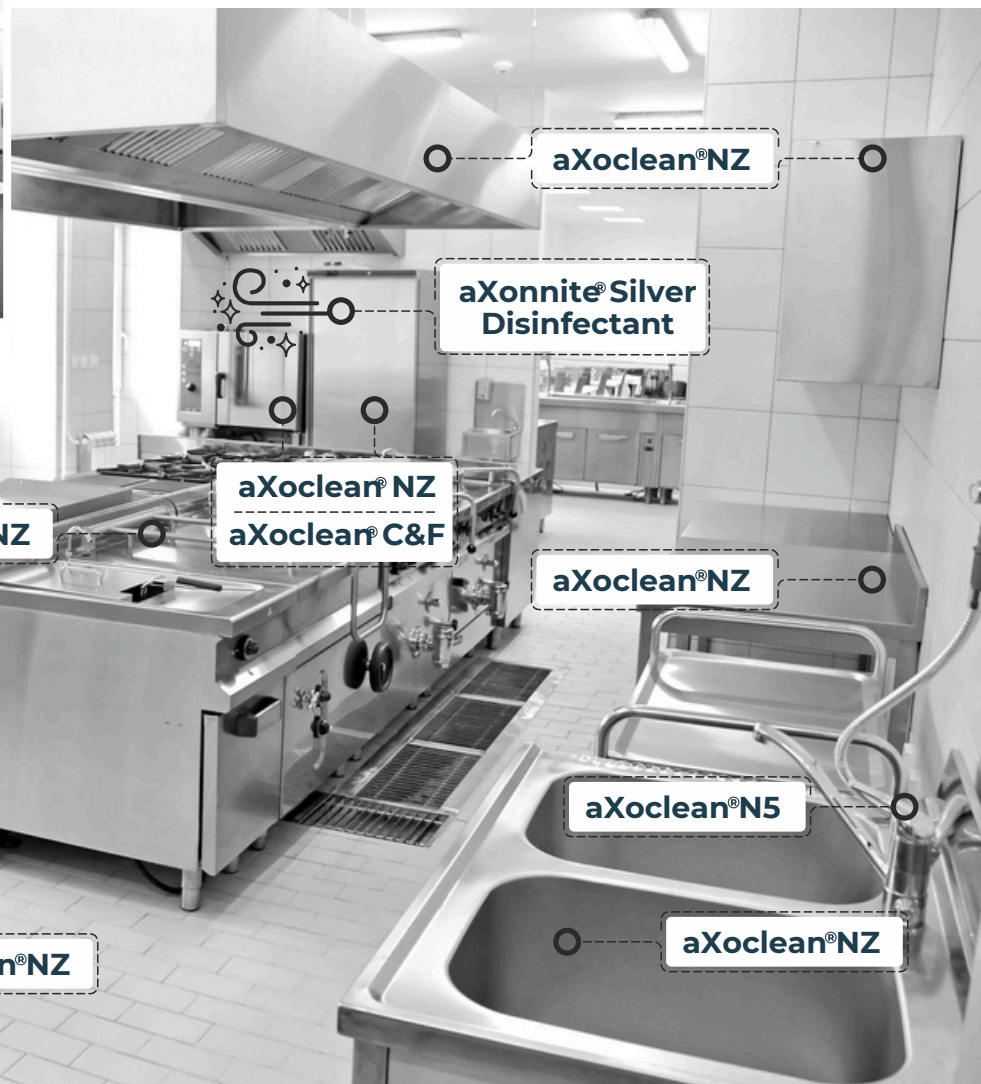

*The Hydroxyl Radical is a naturally occurring cleaning agent that is highly effective against a range of pollutants.

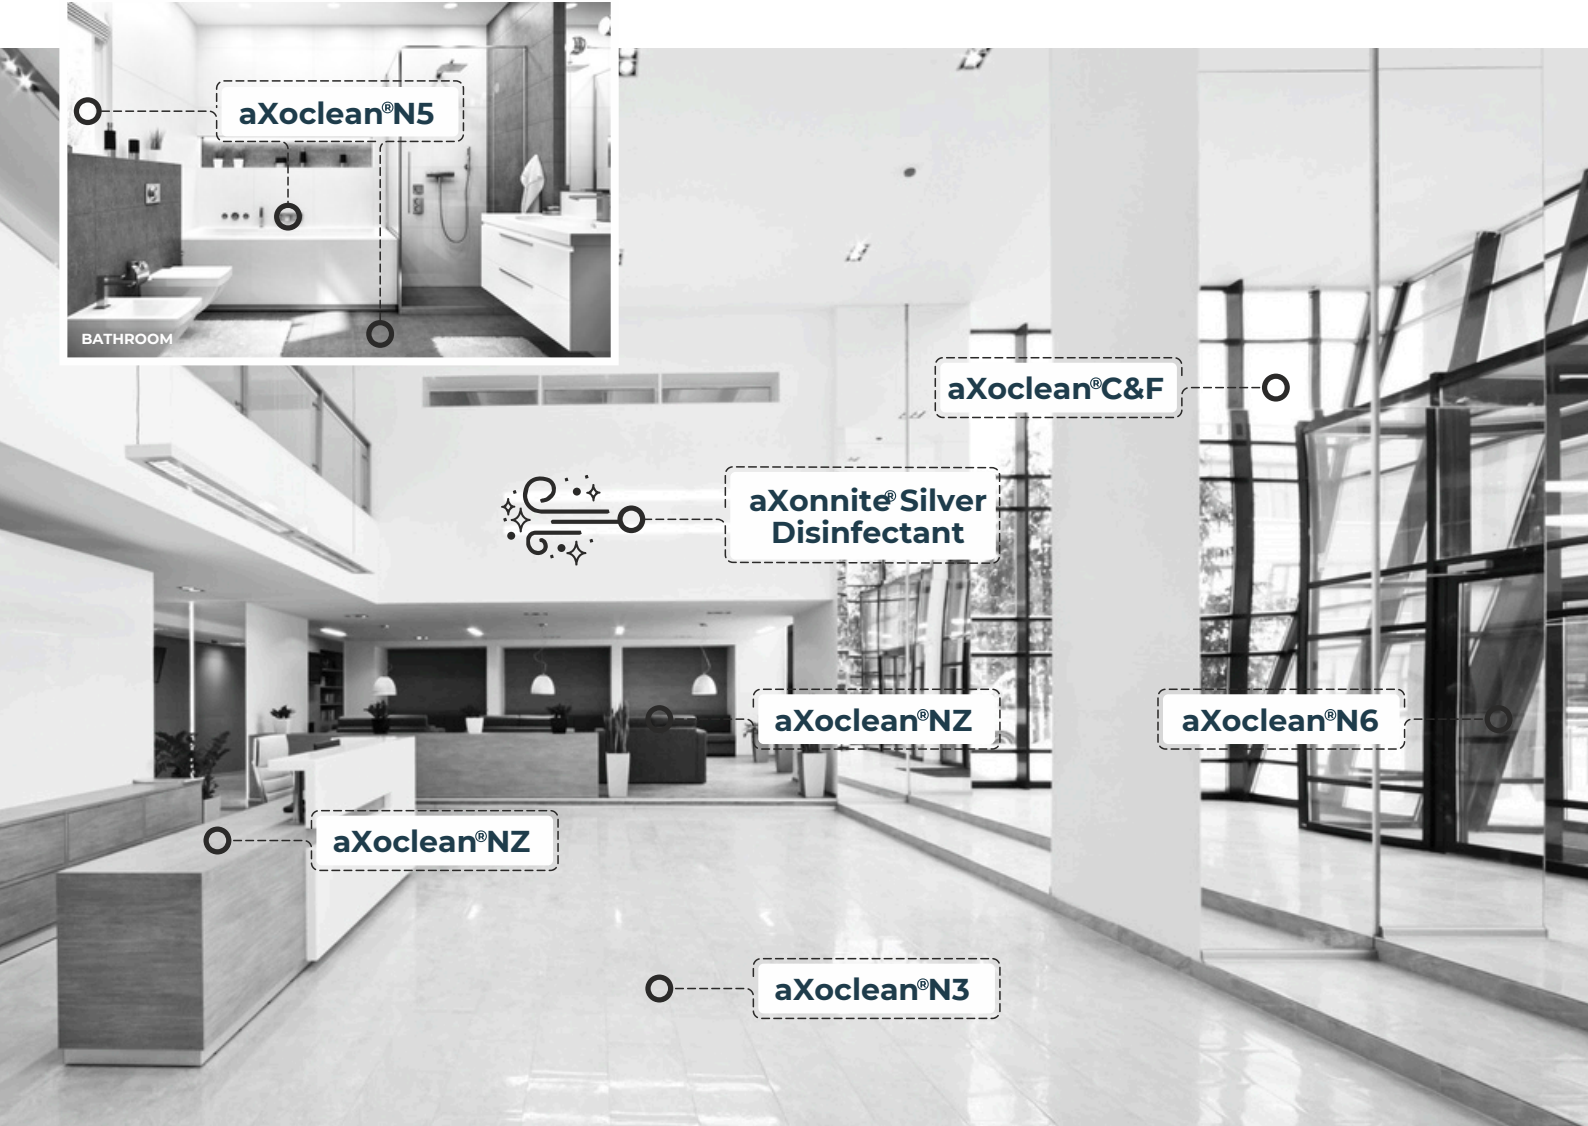

Reduction in VOCs on Clean&Fresh Treated Glass

aXoclean® powered by aXonnite® thanks to its fully sustainable, chemical free technology, helps to keep all surfaces clean in many different applications. Please check this out on the next pages, how we may help.

aXonnite®Silver

» Disinfectant with a wide range of applications

0% ALCOHOL CHLORINE AND CHLORINE COMPOUNDS QUATERNARY AMMONIUM SALTS

- A ready-to-use biocidal preparation with virucidal, bactericidal and fungicidal properties for disinfecting surfaces in private, public and industrial places. It contains active metallic silver particles that create a layer resistant to bacteria, viruses and fungi.
- Due to the content of aXonnite® silver and copper particles, regular use of aXonnite® Disinfectant permanently protects surfaces and prevents the multiplication of viruses, bacteria and fungi on these surfaces, also between cleaning cycles.
- The product is suitable for fogging rooms.
- The product is safe for people, animals, plants and equipment: it does not irritate the skin, does not damage the hydrolipid layer, does not damage disinfected surfaces, does not change the surface structure, does not cause discoloration.

aXonnite®Silver has been tested by the National Medicines Institute in Warsaw. License of the Minister of Health No. 2504/05 to trade in a biocidal product. aXonnite® Silver production is covered by the ISO 13 485 Medical Device Certificate issued by TÜV Rheinland GmbH.

Application methods:

Active substances per 100 g: silver 3 mg

Application area s:

For all waterproof, protected and unprotected surfaces, such as: PVC wood, linoleum, stone, rubber, epoxy resin, furniture laminates, plastics, etc.

aXoclean®Clean&Fresh

- » Environmentally friendly cleaner for glass, mirrors and stainless steel.
- » Photocatalytic surface treatment purifies the air of odors and harmful pollutants.
- » Long-lasting antibacterial and antifungal effects. Powered by aXonnite® technology.

- Streak-free cleaner.
- Makes surfaces easier to clean.
- Improves indoor air quality.
- Reduces VOC (Volatile Organic Compounds).
- Ensures long-lasting and effective protection of cleaned surfaces against the pathogens.

Application methods:

Cleaning frequency: daily
pH: (concentrate) ca. 2.
Net contents: 1L dispensing bottle, 5L canister

Application area s:

Protective and modifying solution for glass and stainless-steel surfaces.

aXoclean®N3

- » Daily cleaning product for water-resistant floors and surfaces. Powered by aXonnite® Technology.
- » Good cleaning performance along with long-lasting antibacterial and antifungal effects due to aXonnite® technology.
- » Prevents the formation of a bio-film.

- Daily use ensures long-lasting and effective protection of cleaned surfaces against the pathogens.
- Prevents the formation of biofilms.
- In the case of machine cleaning, aXoclean® N3 protects against of “spreading” pathogens through the blown air outside the machine.
- In the case of hand cleaning, prevents the growth of bacteria and fungi on the mops and buckets.

Application methods:

For manual cleaning dilution from 1:20 to 1:100
Cleaning frequency: daily
pH: (concentrate) ca. 8,5, **pH:** (solution 1%) ca. 7,4
Net contents: 1L dosing bottle, 5L canister

Application areas:

PVC, linoleum, vinyl, stone, terracotta, rubber, epoxy resin floors, also floors with polymer coatings; especially recommended for use in areas requiring increased microbiological kindergartens, schools, hotels, beauty salons, offices, health care facilities and fitness clubs etc.

aXoclean®N5

- » Daily cleaner for sanitary facilities. Unique product powered by aXonnite®. For washroom surfaces and sanitary facilities cleaning.
- » Long-lasting antibacterial and antifungal effects on cleaned surfaces due to aXonnite® technology.
- » Prevents the formation of biofilms.

- Long-lasting and effective protection of cleaned surfaces against pathogens, even between cleaning cycles.
- Prevents the formation of biofilms.
- Prevents bad smell in sanitary rooms.
- Effectively prevents the growth of bacteria and fungi on mops and tools used.

Application methods:

Cleaning frequency: daily
pH: (concentrate) ca. 2.
Net contents: 1L dispensing bottle, 5L canister

Application areas:

bathbubs, toilet bowls, bidets, chrome surfaces, stainless steel, ceramic tiles, floors, walls, glass, plastic (eg. shower cabins).

aXoclean®N6

Plastic and glass surface cleaner.

- » Quickly and thoroughly removes dirt.
- » Leaves clean and shiny surfaces without streaks
- » and a pleasant fragrance

Due to the content of aXonnite® silver and copper particles with virucidal, bactericidal and fungicidal properties, regular use of N6 permanently protects the cleaned surfaces and prevents the multiplication of viruses, bacteria and fungi on these surfaces, also between cleaning cycles.

Application methods:

Cleaning frequency: weekly and monthly

Application areas:

Plastic surface cleaner (e.g. incubators, medical equipment, countertops, computers, telephones) and glass (e.g. windows, mirrors, glass walls, doors, partitions) etc.

aXoclean®NZ

Revolutionary, Heavy Duty, NONDETERGENT multipurpose cleaner

- » with a power of sanitizer powered by aXonnite® technology.
- » aXoclean® NZ gives truly clean surface, removes tough
- » soil, bio-film, detergent residues, leaving nothing behind to attract dirt plus you get the surface bacteria free!

- VOC & solvent free.
- No oxidizers/bleaching agents (like peroxide).
- No bacteria or enzymes.
- Patented ingredients for removing germs and prevents

the formation of bio-film.

- Removes other cleaners' sticky residue.
- Exceeds green testing standards.
- Leaves any surface Bacteria Free - permanently.
- In the case of machine cleaning, aXoclean® NZ protects against of "spreading" pathogens through the blown air outside the machine.
- In the case of hand cleaning, prevents the growth of bacteria and fungi on the mops and pads.

Application methods:

Cleaning frequency: daily - QSR, periodic - once a week in other places

pH: (concentrate) ca. 11,4 pH: (solution 1%) ca. 10,5

Net contents: 1L dosing bottle, 5L canister

Application area s:

PVC, linoleum, vinyl, stone, rubber, epoxy resin floor surfaces, as well as surfaces above floor made of plastics, stainless steel, etc. aXoclean® NZ is recommended for cleaning floors and surfaces above floors in areas requiring increased microbiological cleanliness like: nurseries, kindergartens, schools, HoReCa, beauty salons, offices, health care facilities and fitness clubs, etc.
